A black and white halftone photograph of a person's face, heavily obscured by a dense grid pattern. The grid consists of numerous small, square dots of varying sizes, creating a textured, abstract effect. The person's features, such as the eyes, nose, and mouth, are partially visible through the openings of the grid. The background is dark and appears to be a textured surface.

A high-contrast, black and white halftone photograph of a person's face, possibly a man, looking slightly to the right. The image has a distinct dot pattern and is framed by a thick black border.
