我現在

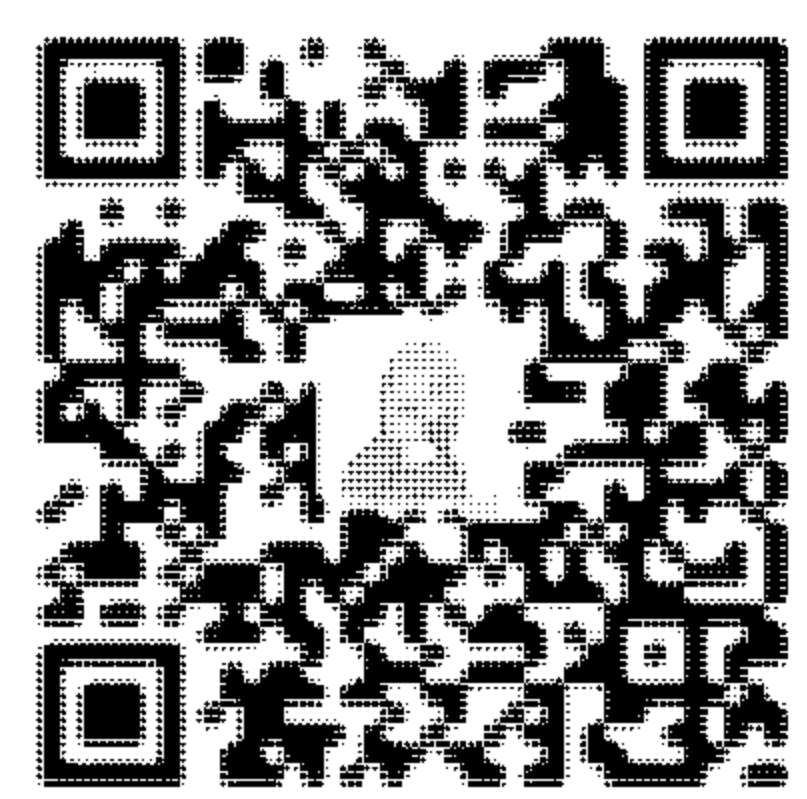

A high-contrast, black-and-white halftone photograph of a person's face. The image is composed of a dense pattern of black dots of varying sizes, creating a textured, almost abstract effect. The person's features are partially visible through the dots: a dark, wavy hairline, a forehead, and a nose. The background is lighter and also features a similar dot pattern. The overall quality is grainy and suggests a low-resolution scan of a printed or processed photograph.
