THE HANDBOOK OF HUMAN CAPITAL

A high-contrast, black-and-white halftone photograph of a person's face. The image is heavily obscured by a dense grid of black dots, giving it a pixelated or screened appearance. The person's features are barely visible through the pattern. The background is dark, and the overall effect is abstract and grainy.

MANUFACTURER REPORT CARD

A halftone graphic of a person's face, rendered in a dotted pattern. The person has short, light-colored hair and is wearing a dark, collared shirt. The graphic is set against a background of a dense grid of small dots.
