A vertical column of large, stylized, black and white halftone numbers from 1 to 10, arranged vertically. The numbers are rendered in a bold, rounded font with a high-contrast black and white dot pattern. The background is a light gray dotted texture.

GOALS AND OUTCOMES

As a result, the author has developed a new model of the relationship between the two variables. This model is based on the assumption that the relationship between the two variables is non-linear and that the effect of one variable on the other is mediated by a third variable. The author has also developed a new method for estimating the parameters of this model, which is based on the use of a neural network. The author has tested this model on a large dataset and found that it provides a better fit to the data than the traditional linear model.
